^{1.6)} Please enter any feedback on the Teaching Assistant below.

- Excellent Tutor, I would say he is one of the best tutors I have encountered at Imperial; very patient, responsive to student emails and questions and good at articulating economic concepts. He is heaven sent compared with a lot of other irresponsible tutors and even professors. I wish him all the best in future, really appreciate his classes and office hours.
- For first few weeks just went through the coursework. However, the coursework will be no use to us in the exam so not very useful
- Good
- Maybe provide a bit more insight into the early topics instead of just solutions to the problem sets
- Never went to a single class as they were corrections of courseworks for which everyone gets the same grade anyway.
- The TA was giving up Matlab solutions of the problem sets.
We didn't do 1 exercise that helped us for the exam so what's the point?!
Maybe better to cover short questions we can have in the exam!
- The second half of the tutorials is much better. My little suggestion is that he can mention more about the course in his tutorials, just like what he did for the last 4 weeks. That's help us link the problem set to the lectures better.
- happy
