1. Teaching Assistant

^{1.6)} Please enter any feedback on the Teaching Assistant below.

- Great passion and preparation, the best!
- He gave some helpful tips for homework .
- Hormoz is one of the greatest tutor I had during my first term at Imperial. Not only he does his best to make sure students understand the topic (which is a very challenging one in my opinion) but he always makes himself available to help students in case they are struggling with any questions. Hormoz had helped me many times during his office hours and he was always able to explain the content in a clear way. I made sure to attend all of his tutorials because his working outs were always very complete and clear to understand in order to get to the final answer. He is with no doubts, an excellent and knowledgeable tutor.
- Hormoz's approach is quick and efficient. He is clearly knowledgeable about the subject and knows how to help students.
- I enjoy his teaching. He is knowledgeable and at the same time he can share some practical knowledge with us as well! I love him as much as I love Salim!
- Keep up the good work.
- Mr Hormoz is really good.
- Na
- One of the best TAs I have ever had. Very friendly and helpful. Always going above and beyond to make sure we get every little detail. A wonderful all-around guy.
- Overall, he was effective and was quick to respond to questions. However, probably due to the limited time of the tutorial session, he tended to move quite quickly through the problem sets which made it difficult to understand especially as the concepts become more complicated.
- Really helpful and informative. Learnt a lot and helped me understand how the models are derived.
- The teaching assistant was great. However, it would be more helpful if he was given more time in the tutorial. 1 hour is too short to understand everything and the subject is highly intuitive and conceptual.
- Very enthusiastic about topic and responsive to students' questions
Very knowledgeable
